Education

Bachelors in Technology, *Parul Institute Of Technology*　　　　06/2019 – 05/2023
Completed my Bachelors of Technology in Computer Science with GPA of 7.2　　　　Vadodara, India

Higher Secondary School Certificate, *National Institute of Open Schooling*　　　　04/2018 – 05/2019
Completed my Higher educations in PCM stream with 66%　　　　Ara, India

Skills

React JS | Node JS | Express JS | Three JS | Next JS | JavaScript | MongoDB | SQL | Java | OOPs

Python | PHP | JSX | CSS | HTML | Typescript | Tailwind | Framer Motion | Bootstrap

Projects

e-Shops 🔗
- Successfully built an eCommerce platform that delivers secure user authentication, streamlined shopping experiences
- Designed and implemented a secure user registration and login system, incorporating industry-standard encryption techniques to safeguard user data.
- Designed and integrated a password recovery system.
- Focused on responsive design to ensure smooth usability on various devices with 2 distinct user and admin panels with intuitive interfaces.
- Tech stack: React JS, Node JS, Express JS, MongoDB, Tailwind
- Robust admin management, culminating in a user-friendly and secure online marketplace.

Contact Management System 🔗
- This project was about creating a web based contact system where user can login with there credentials.
- Login user authorization will only be valid for 15 minutes for security purpose.
- Deployed secure password hashing techniques for user authentication to ensure data privacy.
- Designed an intuitive dashboard that displays contacts in an organized manner, making it easy for users to locate and manage their contact information.
- Tech stack: NodeJS, Expressjs, MongoDB, Javascript, HTML, CSS

3D Portfolio 🔗
- Created a 3D portfolio showcasing works, projects, highlighting diverse skills and achievements.
- Utilized many 3D models, textures, and lighting effects to create an immersive interface.
- Integrated cross-device compatible design principles, ensuring the portfolio's accessibility and optimal viewing on a wide range of devices, from desktops to smartphones.
- Curated an intuitive navigation system within the 3D environment, enabling users to explore diverse project categories seamlessly.
- Tech Stack: React JS, Three JS, Framer Motion, Tailwind

Achievements

Gold Batch in Java, *Hackerrank*

5 Star in SQL, *Hackerrank*

3 Star in Python, *Hackerrank*

Soft Skills

Communication | Problem Solving | Teamwork | Leadership | Time Management | Adaptability | Empathy

Critical Thinking | Collaboration
